1. Read the film reviews (A-F) and the descriptions of the people(1-5) who want to watch a DVD. Decide which film is the best for the people to watch. There is an extra review you will not need.

A. *Shrek the Third*
I didn't go and see *Shrek the Third* at the cinema because I thought it was for young children. Then I got the DVD for Christmas, and now I love it. It's very funny! In the film, Shrek and Fiona live in a royal castle. Shrek is always breaking things! Later, Shrek has lots of crazy adventures with his friends, Donkey and Puss in Boots.

B. *The Birds*
At first, *The Birds* was very slow and I didn't think it was very scary. But in the end, I was really frightened. All the birds in a small American town started to attack the people. At the end of the film, some people were inside a house and hundreds of birds tried to come in. Tippi Hendren played the part of Melanie Daniels. She was fantastic!

C. *Quantum of Solace*
*Quantum of Solace* is Daniel Craig's second Bond film. James Bond films always have great stunts, but this film is my favourite because the story is exciting, too. Bond tries to stop a horrible businessman called Dominic Greene. But Greene has dangerous friends in the CIA and they're all trying to kill Bond!

D. *The New World*
In *The New World*, Colin Farrell plays the part of John Smith. Smith is English and in 1607 he visits America. There he meets the beautiful Native American girl, Pocahontas. At first, the English people and the Native Americans are friends, but then the problems start. It is a romantic story, but I learned about American history, too.

E. *Home Alone*
An 8-year-old boy, played by the cute and funny Macaulay Culkin stays alone in his home while his family flies to France for Christmas and he must keep two bad guys out of the house. But don't worry, it isn't scary. You will love the clever boy and you can laugh a lot at the two stupid men.

F. *Avatar*
The special effects in this animated film are fantastic! The year is 2154 and Jake Sully (Sam Worthington) travels to the planet of Pandora where the Na'vi people live. The problems start when Jake lives with the Na'vi culture and falls in love with Neyteri (Zoe Saldana).

1. Jack loves action films, but hates horror films because they're scary! He thinks love stories are boring.
2. Elise wants a film to make her laugh. She doesn't like stories in the future and she hates films with small children.
3. Emma likes films that are about real events. She finds them interesting. She also enjoys watching love stories, but she doesn't like scary films.
4. Leo is interested in art and likes watching animated films. He particularly likes science fiction stories.
5. Anna and Martin prefer watching horror films to comedies. They love frightening things, not funny things.

Nottingham Goose Fair
Nottingham in England is famous for Robin Hood. But it’s also the home of the world-famous Goose Fair. Every year at the beginning of October (the exact date changes every year), the fair comes to town for a few days. Goose Fair is the biggest travelling fair in Britain. There are about 55 rides at the fair every year, including things like roller coasters, water rides, and giant wheels. And there are another 40 that aren't scary and are for younger children. There is lots of food at Goose Fair – candy floss, toffee apples, and special Goose Fair sweets called a cock-on-a-stick, which look like cockerels (male chickens). You can also buy hot dogs, of course! About three hundred thousand people go to Goose Fair every year. They go on the rides, eat the food, walk around the fairground, and enjoy the sights and sounds. Goose Fair is great fun but it’s hard work for the people who work there. It takes them four days to get everything ready. They drive their huge trucks to the fairground, and then they put the rides together and make sure they’re safe. The Big Wheel, for example, is 33 metres high, so it isn’t easy to build. When the workers see how much everyone enjoys Goose Fair, they know it’s worth all the hard work.
